

## Leave No Trace

It's fun to be outside and explore, but make sure you protect nature while you're out there. It's like being nature's invisible guest!

A special group called Leave No Trace created Seven Principles to help us keep nature safe.

- 1 Know before you go
- 2 Choose the right path
- 3 Trash your trash
- 4 Leave what you find
- 5 Be careful with fire
- 6 Respect wildlife
- 7 Be kind to other visitors

Talk about the list with an adult. What do you think each one means?

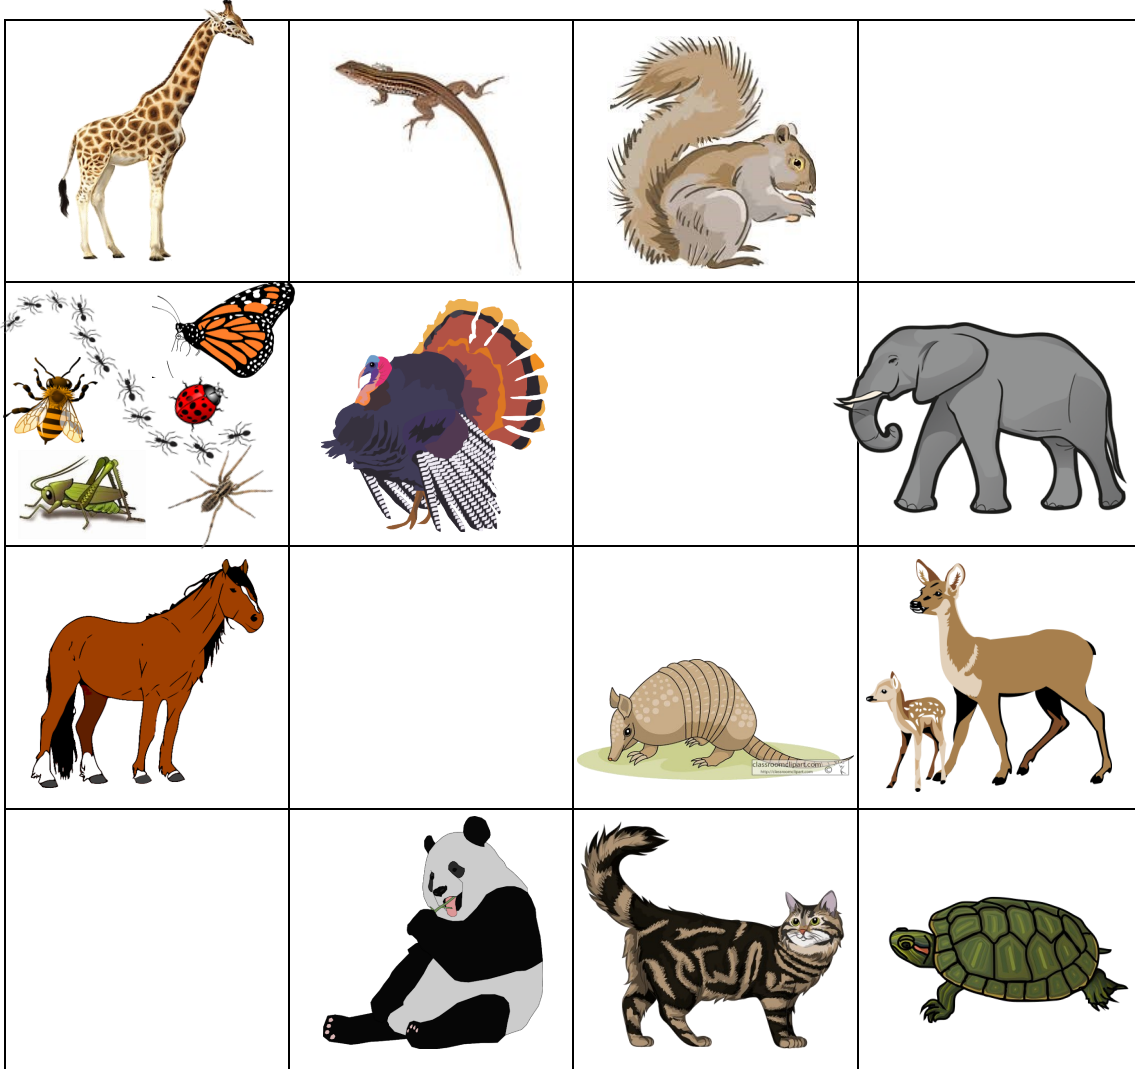

If you see any trash today on your hike, pick it up and put in the paper sack to throw away in a trash can later.

Thank you!

# Wildlife Game

Fill in the blank squares with animals you might see near your home or far away. Circle animals you might see at camp and cross out ones you probably won't.

If you see any animals on your hike, leave them alone and do not touch them!

Thank you!
