CODE
About Me

My name is:

I'm going into:

grade

Pretend that you are a programmer and write your own code in the robot to show the world what makes you wonderfully you!

Programmers use code to create robots. Code is a type of language that gives instructions to a computer to perform tasks.

It is this unique code that tells the robot to perform activities like building cars, making music, performing surgery, exploring space and more.

Draw or glue a photo of you.

Something I like to do is:

Something I want to try is:

If I was a robot I would...

I'm special because:

I help others by:
