Comic Artist

Complete the five steps to earn your Comic Artist Badge.

1. **Delve into the World of Comics:** Visit the [Library of Congress's Comic Art Exhibit](). What is one of your favorite comics?

2. **Choose a Story to Tell:** Think of a story from your own life, a book, a movie, or make something up.

3. **Draw it out:** Practice drawing shapes and people for your comic. Work out the details of your comic script before you start your final version.

4. **Frame it in Four Panels:** Put your story into four panels. You can use more if you need to. Be sure to include facial expressions and or body language to better tell the story.

5. **Add the words:** Put some dialogue bubbles, thought bubbles, or put a narrative in separate boxes below the panels.

   Check out my example in the video.
