

## Between Earth and Sky

# A ROAD TRIP TO REMEMBER

**H**ave you ever traveled far, far away? So far that your suitcase traveled, too?

You might travel close to home, to a zoo or a park. Or you could just travel around the block. If it's raining, you might stay indoors. But you can still travel—from room to room or floor to floor!

So travel can be near, and travel can be far. You can even travel the world with no suitcase at all!

And that's what you're about to do. You'll travel far and wide with some pretty flower friends. They love to be outdoors between earth and sky. So turn the page. Give it a try!
