STEM Career Exploration 2

Paper Dice Template

How to Make a Paper Dice: Print and cut out the template along the solid lines. Then, fold it along the dotted lines and tape the sides together to create a 3D cube.

What's a
new skill you
can learn?

What's
something
you can
do at home?

What's
something
you can
do at school?

What's
something you
can do
by yourself?

What's
something you
can do
with others?

What's one
wild idea
to help you
on your
career path?
