

Outdoor Adventurer

Sky Watch

DAY

Clouds are one way to predict weather! Clouds come in many shapes and forms. Weather forecasters look at clouds to help find out if it will be sunny, rainy, or snowy. Go outside and give it a try!

FOR MORE FUN!

Play “I Spy a Cloud” with a friend. You say, “I spy a cloud that looks like a...” Then say what your cloud looks like—for example, a bowl of ice cream, a dog, a plant, or a face. See if your friend can point it out in the sky. Then have your friend take a turn!

NIGHT

The best place to see the night sky is away from the city lights. The nighttime sky also changes during the seasons. How is the sky in winter different from the sky in summer?
