### Getting Feedback

When someone gives you opinions or information, or offers you a way to make something better, that's called **feedback**.

What's your idea? What does it do or how does it help?

*My idea is* \_\_\_\_\_

*that will* \_\_\_\_\_

To get feedback on your idea, say:

*What is one thing you like about it?*

*What is one thing you would change?*

*Would you buy or use this? Why or why not?*
