

Cadette Woodworker Badge

Activity Choice Descriptions

Walk your girls through the activity choices and let them decide which ones they like best.

Meeting 2 Activity Choices

Saw Some Wood:

End the Alphabet: Cut the letters X, Y, and Z with a miter saw and box.

Square It Off: Compare the miter and the handsaw by cutting a 6" x 6" square out of a piece of plywood.

Make a Simple Figure: Using the miter saw and box, cut geometric shapes to create a simple figure (like a girl or dog made of triangles, rectangles, and squares).

Build Something Yourself:

Build with an Expert: Make a woodworking project with help from an expert.

Build with Home Improvers: Make a woodworking project in a class or workshop.

Build at a Crafts Store or Artisan Workshop: Some woodworkers teach courses in their workshops, or crafts or framing stores in your area might also offer guidance as you complete a woodworking project.
