## Natural Objects

**Plants**, like flowers and trees, grow everywhere, even in water.

**Animals**, like birds, fish, snakes, frogs, and mammals, live all over the world.

**Rocks** make mountains, canyons, and sometimes sand.

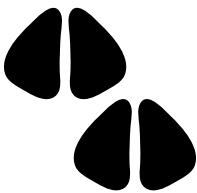

**Insects**, like butterflies and bees, help plants grow and provide food for animals.

## Clouds

**Cumulus clouds** are puffy. They usually mean the weather will be nice.

**Cirrus clouds** are long and wispy. They usually mean the weather will be nice.

**Stratus clouds** cover the whole sky. Mist or drizzle falls from these gray clouds.

**Nimbus clouds** are dark with rain or snow. They're found in thunderstorms or snowstorms.
