# Example Bar Chart Community Survey

Below is a sample data set and histogram based on the issue of healthy food choices at school.

You can find the blank template under the Meeting Aid “Community Survey Bar Chart Template”.

**Issue:** Healthy food choices at school

**Question:** How important is quality of food as an issue?

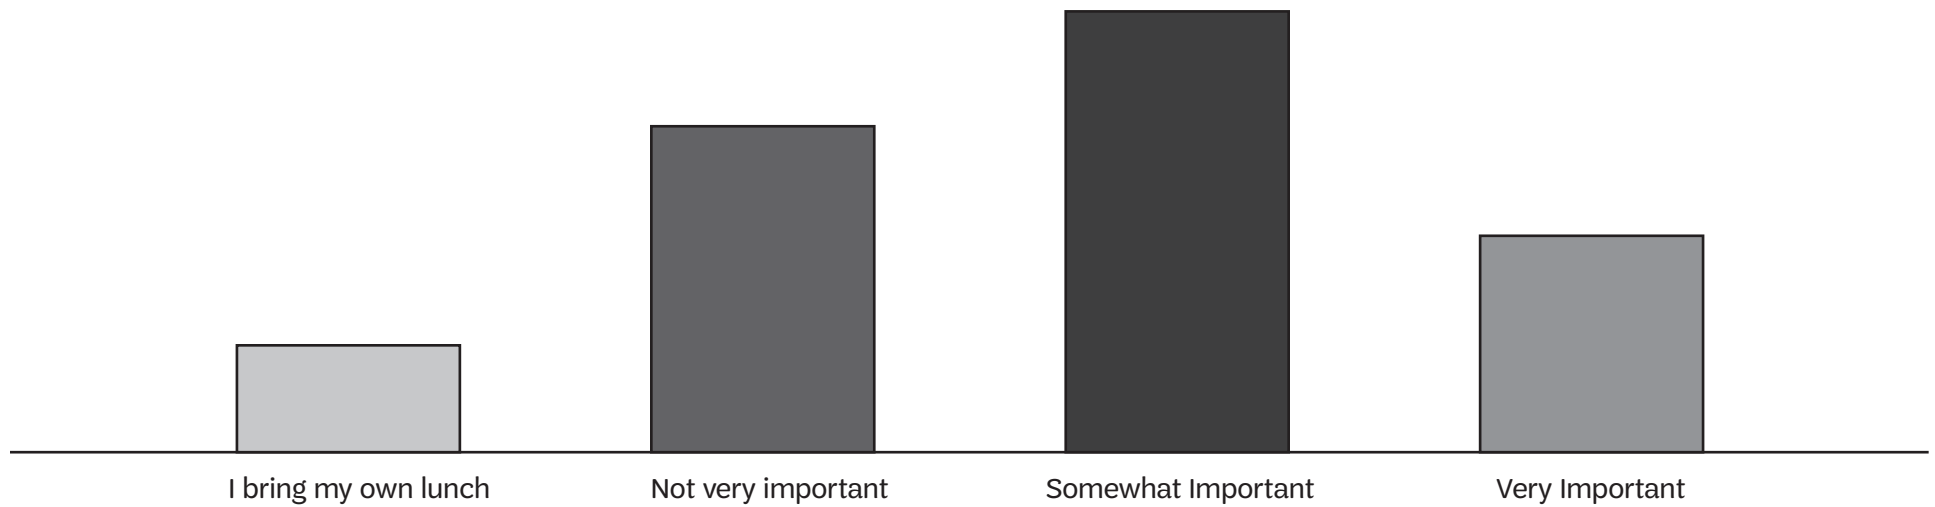

**Data Collection:**

Surveyed Individual:	I bring my own lunch	Not very important (e.g. I like all food!, or, I don't like vegetables or salads!)	Somewhat Important E.g. I like healthy food but not all the time	Very Important E.g. good quality food is very important. Junk food is a problem for me!
<b>Question:</b> Healthiness of lunch	1	3	4	2

**Bar Chart:**

This bar chart shows data for a group of 10 girls on healthiness of food and importance of the issue:

**Healthiness of Lunch**

**Interpretation:**

The bar chart shows that while people consider healthy food to be important, it isn't the only factor that people consider when thinking about food.
