

How to Build a Bird Feeder

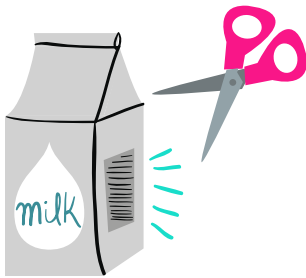

What you'll need:

- A clean, empty milk carton
- Scissors
- String
- Birdseed

How to make it:

- 1 Cut a rectangle in one of the carton sides. (Leave about 2 inches on the top and bottom, and $\frac{1}{2}$ inch on the sides.)

- 2 Poke a hole in the folded top of the milk carton, and thread the string through it.

- 3 Fill the bottom of the carton with birdseed.
- 4 Hang the carton by the string on a tree branch, porch, or other outdoor place.
