

Pizza Box Solar Cooker

Solar cooking is slow cooking. Be prepared to leave your food in for a while!

You will need:

- Cardboard pizza box
- Plastic wrap
- Scissors
- Aluminum foil
- Clear tape
- Black construction paper
- Newspapers
- Wooden spoon

- 1 Have an adult help you cut along three sides to make a flap in the lid of the pizza box.
- 2 Cover the inside of the flap with aluminum foil.
- 3 In the box opening where you cut the flap out of, wrap plastic sheets around it so it looks like a window.
- 4 Inside the box, tape black construction paper along the bottom. Roll up sheet of newspaper to create a border around the cooking area.
- 5 Take your solar pizza box over to a sunny spot.
- 6 Use the wooden spoon to prop open the flap at an angle so it faces direct sunlight.
- 7 Use mittens or a towel when you lift your dish out of your solar cooker.
