

STEM Career Exploration Badge

Career Path Next Steps

First, decide on your goals for the future:

How do you see yourself when you're all grown up?

In the future, what career or field do you see yourself in?

Then, create some next steps to reach your goals:

What are some things you can do to reach these goals?

At school?	
At home?	
By yourself?	
With others?	

What's one new skill you can learn?

What's one wild idea to help you reach these goals?
