Activity Choice Descriptions

Walk your girls through the activity choices and let them decide which ones they like best.

MEETING 2 ACTIVITY CHOICES

Edit Three Photos

Fix Something: Sometimes photos don't come out the way you want. They can be too dark or light, or maybe someone walked into the picture that you didn't expect. In this activity, you'll fix something that you think is wrong with the picture.

Change Something: There are times when you take a picture and you think it would look better if it were black and white, or if some part of the picture was warped or blurry. Maybe even invert all the colors so the picture looks like a negative. In this activity you'll change the elements of your picture.

Add Something: Wouldn't some landscape photos look more interesting with whales flying through the sky? Or wouldn't a family portrait look better if there was a pet unicorn in the picture? In this activity, you'll add a new element to a picture you've taken.

Make a Digital Photo Project

Create a Collage: Take a bunch of pictures and arrange them into a collage based on a theme you choose.

Create a Panoramic Photo to Capture a Wide View: Piece a series of pictures together to give the impression that you're looking at a wide angle. Maybe take an extra step to cut the pictures apart and make a panoramic puzzle of your pictures!

Make a Gift for Someone Special: Pictures are a great gift. If you have someone in mind, take a picture you love and frame it, put it on a t-shirt, and give it to them!

Share Your Photos

Make a Digital Album: Make an album! Instead of using a social image platform like Instagram or Snapchat, create a specialized one that you can print if you'd like.

Stage an Art Show: Photography shows are a great way to showcase work. Choose 15 to 30 of your favorite photographs and arrange them in a way for people to view them.

Start an Online Photo Journal: It's important to share your pictures with the world. Make an online photo journal as a troop where you regularly post a picture or pictures around a theme.
