## Is it Phishy?

- ☐ **Are there spelling mistakes?** Fake emails often have misspellings in them.
- ☐ **Is the person in the email offering something that's too good to be true?** Scammers will often say you can get free electronics or other expensive items by clicking on something. They might say: "Act now, it's free!"
- ☐ **Is the email making an offer for something?** Does it look like an advertisement? It's spam.
- ☐ **Is the email asking for your private information?** Never share private information through an email.
- ☐ **Is the email marked "urgent" or threatening something?** Scammers often say things like: "You need to act on this offer now! Urgent!"
- ☐ **Does the message have an attachment?** Never click on an attachment in an email unless you know the person who sent it.
