

Cadette Trees Badge

A Legacy of Trees

If you were a Girl Scout in 1930, here's how you would have earned your Tree Finder badge:

- Know the parts of the tree
- Know twenty-five trees and shrubs when in leaf
- Know at least ten of these by bud, leaf scars and bark
- Know something of the life history and life processes of trees
- Be able to read the age of a tree by its rings, recent growth by the twigs
- Plant at least one tree that you have raised from seed
- Demonstrate how trees should be pruned, trimmed, and breaks mended
- How trees are to be protected from insect and fungus diseases
- Make a list of woods and their uses
- Know the best trees to plant in the streets, in small gardens, and about the school

elm

poplar

oak

willow

birch

pine
